

Dream Her to Life

Kate Havnevik

The time is ripe
The air is petrified
I wake to light
Walk barefoot into the fire

(Hmmm...)

I will dream her to life
I will sing her to life
Dream her to life tonight
I will dream her to life
I will bring her to life
Who will be the dreamer of me?

The earth will yield
Confetti will dress the field
I'll spin the wheel
Throw pollen and parachute seeds

I will dream her to life
I will sing her to life
Dream her to life tonight
I will dream her to life
I will bring her to life
Who will be the dreamer of me?

I will dream her to life
I will sing her to life
Dream her to life tonight
I will dream her to life
I will bring her to life
Who will be the dreamer of me?
