

Starlight Fires

Kate Havnevik

Sometimes somewhere
It's so dark we don't go there
Somewhere sometime
All the stars will share their light
And I'll try if you'll try

I'll never be the me I was before
And I'll never be the me I was to you anymore
Let's get careless
Ooh...

Sing without the blood and hate
We'll summon all the creatures of the night
Sing it out don't calculate
You'll hear the forest come alive

And I'll never be the me I was before
And you'll never see the better me hiding by the door
Cause we'll be good together come out and lets explore
Or you'll never know
No, you'll never know

And you'll never know if we could light the starlight fires
And you'll never know if we could light the starlight fires
No, you'll never know
No, you'll never know

End my song
End my song
