

# Goldfish

Kate Walsh

If I could leave this town, I'd bold  
Enjoying the lost and found  
And start all over  
I crib the open road  
Like birds in summer  
A chance to break the mould  
Is all that I'm after  
Can you offer anything, doctor  
Help me start again  
Moving forward  
Without awkward moves  
I would be brave

And I could leave this goldfish sea  
And I could start to believe in me  
And after the sun the rain would fall  
But I wouldn't mind at all

And if I could just escape this body  
I know I wouldn't fake for just anybody  
I claw my heart for you  
And keep it until I was okay with what I do  
That's all that I'm after  
Can you offer me anything, doctor  
Help me to start again  
Moving forward  
Without awkward moves  
And I would be brave

And I could leave this goldfish sea  
And I could start to believe in me  
And after the sun the rain would fall  
But I wouldn't mind at all  
No I wouldn't mind at all
