

# It's Never Over

Kate Walsh

Well it seems like I'm losing all the time  
I gotta run up a bill  
'Till this dark horse is leaving  
And I know you'll be leaving

But a memory of distant  
You put a crown on my head  
But I'm wishing you never had  
'Cause I have less than I ever have

But I know  
When this street lamp fades  
You're scheming up your next parade  
And the time slowly climbs  
'Till you're here

Days darken my days  
I watch you play or pray  
It's never over  
I'll be waiting here wishing you were over here

It seems destiny means  
How long you'll play unfair  
It's never over  
I'll be waiting here wishing you really cared

When I'm seeing that look that's in your eyes  
You know I will be here  
I'll be giving you anything  
Always giving you anything

But I know  
When this street lamp fades  
You're scheming up your next parade  
Then you're gone  
Creeping home  
And this feeling creeps in  
Alone

Days darken my days  
I watch you play or pray  
It's never over  
I'll be waiting here wishing you were over here

It seems destiny means  
How long you will play unfair  
It's never over  
I'll be waiting here wishing you really cared

But it seems like I'm losing all the time  
(It's never over)  
Gonna run up a bill  
(It's never over)  
(It's never over)  
How long must I think that you don't care  
(It's never over)  
You keep on changing your mind

(It's never over)  
(It's never over)
