

# Snow

Kate Walsh

Snow is falling  
I am Falling  
Let's stay here inside no one's calling  
You and I are just beside ourselves with the new year and  
all the plans we made...  
But let's enjoy today

Cause we know this winter is cold  
and I know, just got to let it unfold  
Look at it go, like Winter's of  
oldest everywhere  
This Christmas air  
God only knows, our love is like snow  
It covers all we know

Snow is falling  
I am falling  
Lets stay here inside no ones calling  
All the joy of a brand new toy could last the year not just on Christ  
mas day  
So let's enjoy today

Cause We know  
This winter is cold,  
And we know just got to let it unfold  
Look at it go, like Winter's of  
oldest everywhere  
This Christmas air  
God only knows, our love is like snow  
It covers all we know

The City's white, so bright it glows  
Let's make today the day we go  
Forwards  
Onwards  
Only god knows  
just where we'll go

Look at it go, like Winter's of  
oldest everywhere  
This Christmas air  
Look at it go, like Winter's of  
oldest everywhere  
This Christmas air  
God only knows, our love is like snow  
It covers all we know
