

# Burn

Katharine McPhee

You're a gift  
But more than this  
You're a curse  
How can I get away with it

When we kiss, I feel such bliss  
It's the worst  
But I can't stop replaying it

A victim of my own demise  
A slave to my desire  
'Cause I found hell in paradise  
And, oh, how I try

But I just can't just kill the buzz  
Can somebody  
Just sedate me  
Make me numb  
Woah

But you can't hide from the sun  
Or can't run when your love is blinding me

So I'll stand in the pounding rain  
Praying I don't feel the same  
But there's no ocean to drown the pain  
The more I fight the love that I found  
The brighter the flames  
Some fires never burn out  
Some fires never burn out  
Some fires never burn out

I admit these chains are keeping me safe  
Forever, I'm your prisoner  
In your grip, it's just the risk that I take  
It's worth the pain that I endure

A victim of my own demise  
A slave to my desire  
'Cause I found hell in paradise  
And, oh, how I try

But I can't just kill the buzz  
Can somebody  
Just sedate me  
Make me numb  
Woah

But you can't hide from the sun  
Or can't run when your love is blinding me

So I'll stand in the pounding rain  
Praying I don't feel the same  
But there's no ocean to drown the pain  
The more I fight the love that I found  
The brighter the flames  
Some fires never burn out

All the tears, they fall in vein  
Baby  
All they do is flame the fire  
Lover  
But there's a toll to these mistakes  
Locked me in, I can't escape

Some fires never burn out  
Some fires never burn out

Some fires never burn out  
Some fires never burn out

Some fires never burn out

Some fires never burn out  
Some fires never burn out

Some fires never burn out
