Faultline

Katharine McPhee

I kind of like this game
Cuz I always played it safe
Let a bird out of its cage
Its gunna fly away
But the feel of the unknown
Has led me far away from home

I don't think I wanna go
Back to where I used to be
Like it was before
Every time you look at me
I want something more

I'm starting to shake
This perfect mistake
Could kill me any moment
But thats a chance I got to take
I'm ready to fall
Break and loose it all
We're dancing on a faultline
And thats about about give away
But I think I'm gunna stay

I just want to lye
Under burning skies
I have wished this moment about a million times
It's dangerous I know
Why should I say no

I don't wanna have to go
Back to where I used to be
Like it was before
Every time you look at me
I want something more

I'm starting to shake
This perfect mistake
Could kill me any moment
But thats a chance I got to take
I'm ready to fall
Break and loose it all
We're dancing on a faultline
Thats about about give away
But I think I'm gunna stay

And Every breath
Is just a breath away from heartache
And maybe I can't wait
But I still wanna breath you in
Like a summer wind

I'm starting to shake
This perfect mistake
Could kill me any moment
But thats a chance I got to take
I'm ready to fall
Break and loose it all

We're dancing on a faultline
And thats about about give away
But I think I'm gunna stay

I'm starting to shake
This perfect mistake
Could kill me any moment
But thats a chance I got to take
I'm ready to fall
Break and loose it all
We're dancing on a faultline
And thats about about give away
But I think I'm gunna stay

I'm starting to shake
