

# Love Story

Katharine McPhee

I think it was the summertime  
When I laid eyes on you  
I didn't even know your name  
Somehow we'd end up in the same room  
It never crossed my mind  
I never saw you like that  
I should've listened to my best friend  
She knew it would be a perfect match

[Chorus:]  
It's a typical love story  
Started out as friends  
We met way back when  
This is just a typical love story  
The boy you never wanted just steals your heart  
I never saw it comin' 'til I fell so hard

I always made up some excuse  
Saying you that weren't my type  
Didn't want to face the truth  
Didn't want to cross that line  
'til one day I saw you  
Out of the corner of my eye  
You were flirting with some girl  
And inside I thought I would die

[Chorus:]  
It's a typical love story  
Started out as friends  
We met way back when  
This is just a typical love story  
The boy you never wanted just steals your heart  
I never saw it comin' 'til I fell so hard

Can't believe its happening  
When I least expect it  
My prince under disguise  
How you fooled me with those eyes  
When I feel like letting go  
In your arms is where I know  
I am wrong  
From the beginning we always belong

Love Love Story  
Love Love Story  
Love Love Story  
(Love)  
Love Love Story  
(Love Story)  
Love Love Story  
(This is my)  
Love Love Story  
(This is my love story)  
Love Love Story  
Love

This is my love story

[Chorus:]

It's a typical love story  
Started out as friends  
This is how it ends  
This is just a typical love story  
The boy you never wanted just steals your heart  
I never saw it comin' 'til I fell so hard

It's a typical love story  
Started out as friends  
This is how it ends  
This is just a typical love story  
The boy you never wanted just steals your heart  
I never saw it comin' 'til I fell so hard
