

Come With Me

Kathryn Williams

Come with me darling
I'll show you something
We've waited long enough till now
Let's do something about it

Come with me darling
There's no more talking
We've stayed up til it's nearly dawn
Let's make ourselves warm

Taken by the tide way out to sea
Past the friends that we used to be
We've talked all evening about being free
Now we're moving close

Come with me darling
I'll show you something
We've waited long enough till now
Let's do something about it

People been leaving in dribs and drabs
Leaving the sleeper who's blocking the stairs
If we go any further we can't go back
What do you want to do

Come with me darling
It's nearly morning
The birds are waking up for us
They're singing for us
Come with me darling
Come with me darling
