

# Everybody Here

Kathy Mar

The music has been sweet and fine but no matter how together we  
seem  
Tomorrow morning some of you people will be saying this was only  
a dream  
But before I put my songs away and all of you forget about me  
I want everybody here to stop what you're doing  
And write down your address for me

There's something about just feeling so good that makes it very  
hard to believe  
That a time is coming for us all when we must get up on our feet  
and leave  
But there's one thing I want you to do and I hope that you will  
all agree  
I want everybody here to stop what you're doing  
And write down your address for me

And one of these days when I get the chance I will send a little  
note to you  
Or give you a call if you'll put down your number  
And tell you that the dream is true  
And a day will dawn when the light of hope will shine for every  
one to see  
So I want everybody here to pick up a pencil  
And write down your address for me

Now some of you people will say that I'm crazy believing that my  
love is a lie  
But if somebody doesn't hold on to that dream  
Then we might as well just give up and die  
If we can't keep just one dream alive then how can we ever be free  
So I want everybody here to stop what you're doing  
And write down your address for me  
I want everybody here to pick up a pencil  
And write down your address for me  
I want everybody here to stop what you're doing  
And write down your address for me
