

## 17 In Abilene

Katie Armiger

It'd take about 900 miles round trip  
To walk on the Gulf of Mexico  
We'd jump in my daddy's beat up truck  
Drive all night and don't look back  
Momma she'd go crazy  
Just wonderin' where we're at

Seventeen in Abilene  
You and me, biggest sky you've ever seen  
There're so many miles of open road  
And so many places still left to go  
Seventeen, runnin' from Abilene

It doesn't take much for us to drive away  
Cause all we need's just a little bit of faith  
I got fifty bucks in my pocket  
It'll get us there, but maybe not back  
The sun is shining from head to toe  
And I don't think I'll ever let you go

Seventeen in Abilene  
You and me, biggest sky you've ever seen  
There're so many miles of open road  
And so many places still left to go  
Seventeen, runnin' from Abilene

I see the stars in your eyes  
Let's start the rest of our lives tonight

Seventeen in Abilene  
You and me, biggest sky you've ever seen  
There're so many miles of open road  
There're so many places still left to go  
Seventeen, runnin' from Abilene
