

# Hard Road

Katie Armiger

I've had my days when I just want to stay in bed  
Shut out the world and put a pillow over my head  
Sometimes I feel like givin' up  
I just think I've had enough

'Cause it's a hard road everywhere you turn  
With lots of choices and bridges not to burn  
There'll be things you like and things you don't  
Things you'll do and things you won't  
'Cause it's a hard road

I've got some friends who like to live their life on the edge  
Taking chances, but feeling no regrets  
What will it take for them to see  
You can't escape this reality

'Cause it's a hard road everywhere you turn  
With lots of choices and bridges not to burn  
There'll be things you like and things you don't  
Things you'll do and things you won't  
'Cause it's a hard road

I'm gonna make it no matter where I go  
I know I'm ready even though

It's a hard road everywhere you turn  
With lots of choices and bridges not to burn  
There'll be things you like and things you don't  
Things you'll do and things you won't  
'Cause it's a hard road

Let's go
