

New World

Katie Costello

Whoa, whoa, whoa, I'm gonna build a new world
Whoa, whoa, whoa, I'm gonna build a new world

Have you seen the news lately?
This world is falling apart
There's war and fear and people crying
But I haven't lost all hearts

Wait a minute man we can get through this
Come together now I know we can do it
Wait a minute man we can get through this, through this

I'm gonna build a new world for me and my friends
Take it in my hands
I know there's better days
I'm gonna build a new world filled with love
Cause I've had enough
Of all the heartache

Whoa, whoa, whoa, I'm gonna build a new world

Have you seen the moon lately?
Her face is looking so sad
There's lies for money
Fame for glory
And the ocean's rising fast

Wait a minute man we can get through this
Come together now I know we can do it
Wait a minute man we can get through this, through this

I'm gonna build a new world for me and my friends
Take it in my hands
I know there's better days
I'm gonna build a new world filled with love
Cause I've had enough
Of all the heartache

Whoa, whoa, whoa, I'm gonna build a new world

I'm gonna build a new world
I'm gonna build a new world
I'm gonna build a new world

I'm gonna build a new world
I'm gonna build a new world
I'm gonna build a new world

I'm gonna build a new world for me and my friends
Take it in my hands
I know there's better days
I'm gonna build a new world filled with love
Cause I've had enough
Of all the heartache

Whoa, whoa, whoa, I'm gonna build a new world
Whoa, whoa, whoa, I'm gonna build a new world

We gotta build a new world
We gotta build a new world
We gotta build a new world
