

# No End In Sight

Katrina Elam

There's a melody in my head  
And I ain't stopped hummin' it since I saw your face  
There's a feeling I can't forget  
I started with you kissing me that way  
And there's no end in sight  
Like an Oklahoma wheat field blowin'  
You've got my heart in motion, and I'm gone  
I'm the pinks and you're the reds  
Just like this sunset, we belong  
And there's no end in sight

How high is the sky  
How long is time  
With you it's how I'm spending mine  
Like there is no end in sight  
I wanna laugh  
I wanna live  
I'm gonna love you like there is, like there is no end in sight

So kick your shoes off, stay awhile  
Ain't nothing here but stars for miles and me  
We're standing on the edge of something  
Not afraid of jumpin' in deep  
And there's no end in sight

[Repeat Chorus]

I'm gonna love you  
I'm gonna love you

[Repeat Chorus]

I'm gonna love you like there is no end in sight  
I'm gonna love you like there's no end in sight

There's a melody in my head  
And I ain't stop hummin' it since I saw your face
