

Idea in My Head

Katy McAllister

What are you doing up at 4 AM?
I'm not gonna look into it
I know about the kind of phase you're in

I got an idea in my head
I just wanna know how you been
I got an idea in my head

Flipping a switch and there you go again
I know about the kind of life you live
I know I'm looking and I'm looking too hard
Where do you want to go?
I got an idea in my head

I got an idea in my head
I just wanna know how you been
I got an idea in my head

I like the way we get along
I know you got stuff going on
I'll stick around till the fire's gone
[?] if you wanna hit me up when you're off
'Cause I got an idea in my head

I got an idea in my head
I just wanna know how you been
I got an idea in my head
Where do you want to go?

Where do you want to go?
I got an idea in my head
Where do you want to go?
I got an idea in my head

I got an idea in my head
I just wanna know how you been
I got an idea in my head
Where do you want to go?

I got an idea in my head
I just wanna know how you been
I got an idea in my head
Where do you want to go?

I got an idea in my head
I just wanna know how you been
I got an idea in my head
Where do you want to go?
