

## No Safe Way

Katy McAllister

Have you just started livin today?  
Cuz I almost feel that way  
We get so behind at times, so behind  
I think I stopped for a minute or two  
But I stopped looking when I met you  
And we get too high but I'm high on tonight

So lets go out to the beach or the city or even  
Just outside to think or we could just breathe it in  
Inside your head I wanna know it all  
Kissing you now seems like an unsafe call  
But baby there's really no safe way  
No baby there's really no safe way to fall  
Baby there's no safe way  
Baby there's really no safe way to fall

Have you see the view from the sky?  
The city is lookin like heaven tonight  
I forget to take things in but I won't miss this  
And I was running straight for the hills  
But now I wanna roll down on the children with you  
Time seems useless, useless

So lets go out to the beach or the city or even  
Just outside to think or we could just breathe it in  
Inside your head, wanna know it all  
Kissing you now seems like an unsafe call  
But baby there's really no safe way  
No baby there's really no safe way to fall  
Baby there's no safe way  
Baby there's really no safe way to fall

Come to find I'm a little bit scared to say  
How often you've really been on my brain  
And I was running straight for the hills  
But now I wanna roll down on the children with you

Lets go out to the beach or the city or even  
Just outside to think or babe just breathe it in  
Inside your head, wanna know it all  
Kissing you now seems like an unsafe call  
But baby, baby, baby there's really no safe way to fall  
Baby, baby there's really no safe way to fall  
Baby, there's really no safe way to fall
