

Real Love

Katy McAllister

What's the forecast
What's on your mind
What's on the agenda
What's the signal
What's on the line
What's in the foundation

Gettin' real, love
Makin' real love in the light of the day
In the time that we're lying there awake
Time has proven to be useless
In the light of the day
In the time that we're lying there awake

What's the motive
What's your secret
What is your location
What's the hangup
What's a good time
What is the location

Gettin' real, love

Makin' real love in the light of the day
In the time that we're lying there awake
Time has proven to be useless
In the light of the day
In the time that we're lying there awake

Light of the day
Light of the day
Gettin' real love
Real love

Gettin' real love
Makin' real love in the light of the day
In the time that we're lying there awake
Time has proven to be useless
In the light of the day
In the time that we're lying there awake
