

# Wanna Believe

Katy McAllister

La la la la  
I love the way that you don't care  
You just move along as if there's nothin' to be scared of  
And I love the way you flip your hair  
Like nothing's wrong to be so confident  
Damn it just ain't fair no  
And I just love the way that you don't know  
What's goin' through my brain  
The way you're makin' me insane.

And I just idolize the way that you carry yourself  
There is no surprise I'm tearin' out my heart again  
It's on my sleeve  
And I love the look in your eyes  
When you talk to me, baby  
You make me  
Just want to believe  
La la la la  
La la la la  
You make me want to believe in everything

And I want to kiss you in the night  
Take your hand and not let go until the light  
These butterflies are hard to fight  
Yeah they just dance around so freely on the inside  
Right now I'm freezing at this sight  
I don't want to let this end so let's pretend there's no such thing as time

Cuz I just idolize the way that you carry yourself  
There is no surprise I'm tearin' out my heart again  
It's on my sleeve  
And I love the look in your eyes  
When you talk to me, baby  
You make me  
Just want to believe  
La la la la x 2

You make me want to believe in everything  
La la la la x 2  
You make me want to believe in everything

I love the way that you don't care  
You just move along as if there's nothin' to be scared of  
And I just idolize the way that you carry yourself  
There is no surprise I'm tearin' out my heart again  
It's on my sleeve  
And I love the look in your eyes  
When you talk to me, baby  
You make me  
Just want to believe  
La la la la  
You make me want to believe  
La la la la  
You make me want to believe in everything.
