

Him Or Me

Kavana

I know you've been lying, baby,
I know that you've been playing games,
Last night was a different story,
Cause for the first time
I saw that look upon your face
I need a new begging baby,
I know it's gonna happen with you,
But first stop the hussling,
Cause if you aren't really careful,
It's all gonna come back to you...

Chorus

Are you leaving now?
Walking out that door,
If you turn around now, baby,
I can always give you more...

Talk to me, let me know the other guy is history,
Don't you know you can't pretend you're just his friend,
You've got to choose it's him or me, him or me...

I've tried to understand you lately,
I've tried not to be a fool,
But you play around so easy,
If you don't respect yourself,
How do you expect me to?

(chorus)

Talking, talk to me,
Him or me baby, history,
him or me, just a friend...

(chorus to fade)
