

The jury won't believe my words  
They want my alibi  
It's no use to convince the judge  
'Cause money knows no pride

Just take a good look around and soon you'll understand  
I do not stand no chance

The traitors and the renegades  
They all have their excuse  
Their peaceful dreams in minds that hate  
While it's me that they accuse  
Just open your eyes my friend and tell me what you find  
Or are you going blind?

Alibi  
Truth or lie

Bars as cure give me your  
Alibi  
Live or die  
Prison will make of you a better man

They tell me this, they tell me that  
Deform the truth their way  
One never knows just where it's at  
Ready to collaborate  
Just open your eyes my friend and tell me what you find  
Or are you going blind?

Alibi  
Truth or lie  
Bars as cure give me your  
Alibi  
Live or die  
Prison will make of you a better man
