

Fall in Love with You

KB

You might be the favorite part of me
Your my season, Summer, Autumn, Spring
I won't go back, you'll get all of me, oh
I'll come running when you call on me
Over mountains, underneath the sea
Bet you bottom dollar I will be here
I'm going through pictures of phone of you
I can't wait to get home to you

Good morning to you baby
When I fall, I fall in love with you
Good morning to you baby
When I fall, I fall in love with you

I'm watching you sprout right in front of me
Wonder what your life will come to be
When you look back I will be behind you
And when I'm old I pray that you will find
Daddy left you all you needed
I love you with my soul, now baby you go
Oh, I hate being gone from you
Caught a red eye to get home to you
So I could say...

Good morning to you baby
When I fall, I fall in love with you
Good morning to you baby
When I fall, I fall in love with you

Let the horns play
Horns play
For KBJ
All my fathers can relate
Let the horns play
I'm going through pictures of my phone of you
I can't wait to get home to you

Good morning to you baby
When I fall, I fall in love with you
Good morning to you baby
When I fall, I fall in love with you
