All my heavy chains gettin' broken
Come exalt Your- (Yeah)

Made my bed and I dug my grave
You've done work with the folk, myself
I saw God 2-double-0-8
Been gettin' wilder, yeah, to this day
I got no shame in my face
I regret to not give thanks
HGA, man, whatever it take
On my name, that's my gain
All day, goin' psycho (Psycho)
On top of the kick, go iso (Iso)
Man, just tryna go disciple, uh
You just tryna go viral
You tryna build you up an empire, uh
Kick it more, you gon' revive us? No
Dust in the wind, let it blow away
Sun comes out, all the stars gotta go away

All my heavy chains gettin' broken (Hey)
And my weary heart's givin' hope
Come exalt Your Name
Exalt Your Name
All my prison doors swingin' open (Hey)
'Cause the enemy couldn't hold
Come exalt Your Name
Exalt Your Name

Yeah
"Remember my God," what I wrote in my will
Break my bones, never break my zeal
Take my home, you can take my deal
Filled with the Ghost, so I say what I feel
We don't talk, tryna make it to the top
Get there, find God holdin' that spot
I work hard and I'm good what I got
I'm a rapper when the doctor said that I wouldn't talk
Uh, cold as the wind chill
Thirteen, I was thrown through a windshield (Kee)
Every day that I'm still healed, uh
You could be Lord, I could be still, uh
Need You more if I'm payin' my bills
Need no preacher, come give me no chills
Give me Your face, Lord, give me Your will
Honesty is free and the soul get healed
In this mug tryna OD
My freedom's Your glory
When it's goin' left, Ginóbili
Still doin' what You told me
Puttin' all the pieces back together
You will not forget us, how You called me
Know You wrappin' up the story

All my heavy chains gettin' broken (Hey)
And my weary heart's givin' hope
Come exalt Your Name
