

Weight Music

KB

It feel like fire in me
Feelin light a fire indeed
Light up entire cities with the glory you got em trippin
I'm standing awe with me
All other alls are empty
Better make haste to the great taste to the great faith
Man don't know what y'all been missin, ha
When you can feel it
This is more than music
The weightiness of the Savior can bury it and consume it
Yeah that weight got a weight to it
Awaken you to God
That weight got a weight to it
Come and see a Man who died
And came alive
Jesus the Son of God
I'm on the dot He should be on the top of our little eyes
I'm talkin lookin I look to the book the book of life
And you can see glory
If it's boring you got crooked sight
Here for your joy
I'm on some other world
Earth can't satisfy you homie
You gon' need another world
Sin is a killer vanity will leave you smothered girl
Death'll cause medics to come wrap you in a cover girl

There's this never ending thirst
It exists in all of us
Try to quench it with getting stuff
But stuff has never been enough
It's only in Adonai
Trust in the Son's sacrifice
You ain't gotta stay thirsty, Dos Equis will comply
If you gotta sip
Of this liv-liv-living water
The world's most interesting man is Jesus He's the Author
They find it comical I make music to prove 'em wrong
Life isn't breathin'
Life is knowing God
From Him I get omission
That mission is my vision
To see the Son of splendor
If I don't then sin will eclipse it
My mission's to the Scripture
I feast on Christ and get so fat off of God
I spoil sin's appetite
You were made for - to see and savor
The glory of your Maker ya show Him off in behavior
This is what it means to be human
To be consumed with the weight and glory of Yeshua
And lead people to Him
