

## Day Will Come

Keane

The winter night has wrapped a rag around your eyes  
And stolen your sight  
You seem so far away  
I hope you find your way back someday  
I miss you, I miss you

Some days set your world on fire  
And some days they sink like stones  
That's when your heart can cry out  
Until your body is numb  
And the night will try to change you  
But the day will come

Dream hard and shoot high  
Sometimes our fingers graze the sky  
But we can't hold on

Some days set your world on fire  
And some days they sink like stones  
That's when your heart can cry out  
Until your body is numb  
And the night will try to change you  
But the day will come

Brother don't hang your head  
Until your distance is run  
'Cause though it seems so far away  
You know the day will come

Some days set your world on fire  
And some days they sink like stones  
That's when your heart can cry out  
Until your body is numb  
And the night will try to change you  
But the day will come

Brother don't hang your head  
Until your distance is run  
'Cause though it seems so far away  
You know the day will come
