

# House Lights

Keane

It's time to make a start To get to know your heart Time to show your face Time to take your place

In every speck of dust In every universe When you feel most alone You will not be alone

Just shine a light on me Shine a light I'll shine a light on you Shine a light

And you will see my shadow On every wall And you will see my footprints On every floor

It only takes a spark To tear the world apart These tiny little things That make it all begin

Just shine a light on me Shine a light I'll shine a light on you Shine a light

And you will see my shadow On every wall And you will see my reflection In your freefall

Just shine a light on me Shine a light I'll shine a light on you Shine a light

Cuz when your back's against the wall That's when you show no fear at all And when you're running out of time That's when you hitch your star to mine

We won't be leaving by the same road That we came by  
We won't be leaving by the same road That we came by  
We won't be leaving by the same road That we came by  
We won't be leaving by the same road That we came by
