

## Strange Room

Keane

A pint set on the piano  
By the open window  
Your arm around my shoulder  
One song after another

A church to praise the good times  
And shelter from the bad times  
And when our run came to an end  
Felt like I lost my best friend

For a moment I was dreaming  
We were just beginning  
Thought finally I've come home  
Finally I've come home

Officer, let me explain  
I lost something I love today  
Yeah I know what it looks like  
A rich kid with a good life

I know you're too young to  
Have done things you can't undo  
To rake over your dreams and  
Know this is what they've come to

I woke up in a strange room  
Time to start again now  
No one to help you find a way through  
You're just meant to guess it somehow

For a moment I was dreaming  
We were just beginning  
Thought finally I've come home  
Finally I've come home
