

# How Could I Have Known

Keaton Henson

How could I have known  
You were the one for me?  
How could I have known  
You were the air I breathe  
If I don't believe in love?

How was I to know  
I couldn't live without  
Your arms around me?  
If you'd only come back now  
I'd not let you down again  
And how could you allow  
One little love you saw?  
How could I think  
If you'd only hold me close  
I'd not let you go again?

Guess I could've been  
A better man  
I should have held onto your coat  
But how could I've known?

And now looking back  
Should have been on my knees  
But I can be cold  
Shoulda said "Stay with me  
Please don't leave me alone"

And those other girls  
They never made me feel  
The way I do now  
Know that our love was real  
But I broke the deal  
And now...

I'm out in the cold  
Baby come hold me close  
Please don't let me drown  
Woman I love the most  
My holy ghost  
Goddamn

Guess I could have tried  
A little harder  
I see comfort in being alone  
How could I have known?
