Gimme that song that takes me home Gimme the music - bring it on Gimme that

Take me back where I belong Give me a reason to carry on Gimme that - aw, gimme that

Give me a war that I can win Give me something to believe in Gimme that - just gimme that

Give me a beer that's good and cold Give me a love that never grows old Gimme that

Gimme that road that leads to you Gimme the word? gimme the truth Gimme that - just gimme that

I want a cause worth fighting for
I want a life worth dying for
Gimme that - just gimme that, now

I want a party that lasts all night Give me a woman that'll treat me nice Gimme that

Give me the time to make things right Give me a dream that never dies Gimme That - yeah gimme that

Give me a war that I can win Give me something to believe in Gimme that - just gimme that
