

# No More Lonely Nights

Keel

Seems I've always been a loner  
But I was never alone  
Wandering down this rockin' road  
Looking for home  
Torn to pieces  
heart broken in two  
It's been a long long lonesome time  
Waiting for you

Now I lost that restless feeling  
When I found just what I need  
It's a dream I can believe in  
Chains of love got a hold on me

No More Lonely Nights  
No more wasted days  
I got a girl that's oh so right  
And she's got what it takes

No More Lonely Nights  
No more wasted days  
I got a girl that treats me right  
And she's changing my ways

I've always been a rebel  
One foot over the edge  
Looking back I know now  
What I didn't know then  
It takes more than hunger  
It takes a heart of steel  
To hold on without holding back  
And let my scars heal

Now I lost that reckless feeling  
When I found someone like you  
It's all I've ever needed  
After all that I've been through

No More Lonely Nights  
No more wasted days  
I got a girl that's oh so right  
And she's got what it takes

No More Lonely Nights  
No more wasted days  
I got a girl that treats me right  
And she's changing my ways
