

Reason To Rock

Keel

Well I got something to fight for - but nothing left to lose
I'm a man on a mission do I have your attention
'Cause I got something to prove

I got a fire deep inside me - A hunger in my soul
When life gets tough to swallow - I just spit out some rock n r
oll

I got a Reason To Rock - That keeps me alive
It won't let me me stop - It's the will to survive
Reason To Rock
That won't let me go - So on with the show

Gone but not forgotten - And still too young to die
So take another shot, ready or not - Don't need a reason why

Some rules were made to be broken - And old habits are hard to
break
So we're back in town for one more round - Or whatever it takes

I got a Reason To Rock - That keeps me alive
It won't let me me stop - It's the will to survive
Reason To Rock
That won't let me go - So on with the show
