

# How We Do Us

Kehlani

Love shouldn't be defined  
Love is one of a kind  
What we do is crazy baby  
All the ways you make me feel  
The way you do me like that  
The way you do me like that  
We just understand what nobody else can  
You know how to put it down  
How to pick me up and never cause me stress  
Every day's a rush  
You always cracking jokes and always make me blush  
I could stand the world if it was just us  
Every day you love me so  
Never let you go  
When I say it's on you'll never tell me no  
That's love baby  
That's us baby

You know ain't explaining all this love we making  
They think that we're crazy but it's us  
Cause this is how we do us baby  
This is how we do us baby

Don't you hate it when they get to asking all them questions 'bout the way we rockin'  
Like, we gotta have a separate title or something  
Gotta be on TV like the idols or something  
Cause baby boy this ain't no way that I could ever begin to explain  
The way we love  
The way we trust  
The bond we have  
It's just for us  
Just for us  
Telling me, yeah we're soul mates  
I knew it ever since our very first date yeah  
You the truth  
I need the whole thing  
But I won't risk putting this love at stake  
For a simple explanation to a simple muthafucka  
Who really don't know us  
Really don't wanna  
I mean it when I say it, that I only wanna love ya  
That other shit is extra  
Baby far above it now  
I know sometimes I do a little much  
I know sometimes you got a little problems with your trust  
But that's love baby  
That's us baby

You're the only one I want and I can never leave your side  
You're always here down to ride  
You're always here and that's why  
I fu-u-u-uck with you  
Said he fucking with me cause I'm loyal  
He know every single lyric  
He at every single show and  
Baby that's why I'm in love with you
