

# Test Drive

Keith Sweat

You make me want a test drive  
You make me want a test drive  
You make me want a test drive  
You make me want a test drive

I hop up in my ride and caress the dash  
Look in my rear-view, you're chillin' in the back  
I got a lot of power and you're workin' with a big body  
Tonight is when my muscle meet your exotic

I know you thinkin' I'm talkin' 'bout a car  
Baby, I ain't, I talkin' 'bout us  
My gas gush through your fuel line  
And you got me tailgatin' you from behind

Come on, baby girl  
Out of all those cars in the yard  
You're the one a player wants  
Got a big bank, girl, I can buy the parts

I'm what you need, so tell me  
You need a lift, girl, I be the seat  
Come on and sit on it, ride on it  
Do what you want but don't you move from it

You make me want a test drive  
(It's hot up in there, I'ma take off your top)  
You make me want a test drive  
(Got my feet on the gas and we will never stop)  
You make me want a test drive  
(Just put the roof back and let your panties drop)  
Down, down, touch the ground now

I'll follow all your signs, give me the green light  
I'll keep it right there until the sunlight  
Slippery on your road, and shorty I know  
You wanna take the wheel, wanna be in control

I keep it comin' so my wood-grain tellin' me  
To go north, go east, go west, go south  
Down, ridin' in your Cadillac  
Keep your feet by the brake if you ain't ready yet

So baby girl  
Out of all those cars in the yard  
You're the one a player wants  
Got a big bank, girl, I can buy the parts

I'm what you need, so tell me  
You need a lift, girl, I be the seat  
Come on and sit on it, ride on it  
Do what you want but don't you move from it

You make me want a test drive  
(It's hot up in there, I'ma take off your top)  
You make me want a test drive  
(Got my feet on the gas and we will never stop)

You make me want a test drive  
(Just put the roof back and let your panties drop)  
Down, down, touch the ground now

You make me want a test drive  
(It's hot up in there, I'ma take off your top)  
You make me want a test drive  
(Got my feet on the gas and we will never stop)  
You make me want a test drive  
(Just put the roof back and let your panties drop)  
Down, down, touch the ground now

You make me want a test drive  
(You make me want to test drive your body)  
You make me want a test drive  
You make me want a test drive
