

# Come Back to Me

Keith Urban

If there's sand that you ain't wrote your name in  
If you're tired of the view from the same window  
If there's lips that you wanna be drunk on  
Ferris wheels that you need to get stuck on, go...  
See everything you think you need to see,  
then come back to me

If there's pavement you ain't put your shoes on  
If there's dance floors you ain't made a move on yet  
And if you're feelin' too safe here beside me  
And you wanna do something you might regret  
Try the whole world on if you feel the need,  
then come back to me

I wouldn't want you to miss a thing  
I wouldn't wake you from any dream you've ever had  
so go on and go unroll every map  
If you gotta leave, you gotta know  
I love you enough to let you go  
if there's greener grass--  
Hey i wanna hold you, I don't want to hold you back

If you fly like a bird in the jet stream,  
hope the sky is in Hollywood-set-scene blue.  
And if you land with a tan and your shades on  
Hope the promise the postcard made comes true  
but if ain't all that you dreamed it'd be...  
come back to me

I wouldn't want you to miss a thing  
I wouldn't wake you from any dream you ever have  
so go on and go unroll every map  
If you gotta leave, you gotta know  
I love you enough to let you go  
And if there's greener grass--  
Hey i wanna hold ya, I don't want to hold you back

If you find someone else who deserves you  
Hope he loves you enough not to hurt you  
But if he does you know right where i'll be...  
Come back to me
