

# Gettin' in the Way

Keith Urban

Moonlight, it's gotta be close to midnight  
Where did it go  
All the time, all the friends left waiting  
Never made it 'cause we kept making out

In the driveway, who would've thought in the driveway  
That we would get lost  
In that dashboard radio static  
Makin' our own kind of magic

Oooo, oh, I said, thirty more minutes, thirty minutes ago  
Oooo, oh, but we're still right here and you already know that

I should leave, put the car in drive babe  
But your kiss keeps tellin' me to stay  
Yeah, your lips keep gettin' in the way  
You know we should've called it a night, babe  
But goodbye's something I can't say  
Yeah, your lips keep gettin' in the way (gettin' in the way)

Windows, we already fogged up the windows  
We're writing our names on the glass  
As the clock keeps ticking  
Sun'll be up any minute

Oooo, oh, I said, thirty more minutes, thirty minutes ago  
Oooo, oh, but we're still right here and you already know that

I should leave, put the car in drive babe  
But your kiss keeps tellin' me to stay  
Yeah, your lips keep gettin' in the way  
You know we should've called it a night, babe  
But goodbye's something I can't say  
Yeah, your lips keep gettin' in the way (gettin' in the way)

'Cause goodbye's something I, something I can't say  
Yeah, your lips keep, keep  
Gettin' in the way

I should leave, put the car in drive babe  
But your kiss keeps makin' me to stay  
Yeah, your lips keep gettin' in the way  
You know we should've called it a night, babe  
But goodbye's something I can't say  
Yeah, your lips keep gettin' in the way (gettin' in the way)
