

# Horses

Keith Urban

Sometimes you get a little bit frightened  
Afraid of the wind and the lightning  
Sometimes you get a little bit insecure  
Sometimes you wonder if you're even good enough  
Hiding from the morning when it's too much  
But there's so much waiting behind the door

And I know and I know and I know  
That you just wanna dance in the light  
Don't you know? Don't you know? Don't you know?  
You're alive

So just let your horses run  
To the limit like never before  
Let's be lost and young  
Wanna show you what your heart is made for  
Let your horses run  
Run, run, run, oh  
Let your horses run  
Run, run, run

I saw you on the street just the other day  
You looked so pretty when you smiled that way  
So open up the door, let your heart escape

'Cause I know and I know and I know  
That you just wanna dance in the light  
Don't you know? Don't you know? Don't you know?  
You're alive

So just let your horses run  
To the limit like never before  
Let's be lost and young  
Wanna show you what your heart is made for  
Let your horses run  
Run, run, run, oh  
Let your horses run  
Run, run, run

Ooh, ooh, ooh, ooh

And I know and I know and I know  
That you just wanna dance in the light  
Don't you know? Don't you know? Don't you know?  
You're alive  
'Cause I know and I know and I know  
That you just wanna dance in the light  
Don't you know? Don't you know? Don't you know?  
You're alive, you're alive

Let your horses run  
To the limit like never before  
Let's be lost and young (I wanna be lost)  
Wanna show you what your heart is made for (show you)  
Let your horses run  
Run, run, run, oh  
Let your horses run

Run, run, run, oh

Ooh, ooh, ooh, ooh

Let 'em run

Dance in the light

Ooh, ooh, ooh, ooh

Ooh

Run, run, run

Ooh
