

Never Comin' Down

Keith Urban

I can feel it coming on now
As the music plays
Taking shots with the night owls
As the world just fades away
Got a big check in my pocket
'Bout to get it all good
Light it up like a rocket
We're going all night long

Everybody sing ooh, mm
I love it when you ooh

When the sun goes down, stars come out
It's a, can you feel it?
Wanna take you by the hand, dancing with my pals
Sit around, round, round
It was so high, we can paint the sky
Tear the top right off the ceiling
And I swear we're never, ever, ever coming down
Never coming down

Oh, oh, ooh yeah
It's coming down, can you feel it?
Oh, oh
Never, ever, ever, never coming down

Well the band's on fire
And the beer is ice cold
We're going down to the wire
Then we'll all go rolling home
And maybe we'll keep it going
'Til we see that sun
Coming up right here, right now
I wanna see you move and hear you sing it out loud

Ooh

When the sun goes down, stars come out
It's a, can you feel it?
Wanna take you by the hand, dancing with my pals
Sit around, round, round
It was so high, we can paint the sky
Tear the top right off the ceiling
And I swear we're never, ever, ever coming down
Never coming down

Oh, oh, ooh yeah
It's coming down, can you feel it?
Oh, oh
Never, ever, ever, never coming down
Oh, oh, ooh yeah
It's coming down, can you feel it?
Oh, oh
Never coming down

Dance, baby, dance, baby
Don't stop now

Dance, baby, dance, baby
Don't stop now
I said oh now, oh now, oh now, oh now, oh now
Dance, baby, dance, baby
I said oh now, oh now, oh now, oh now, oh now
Wait a minute, baby, tell me one more time
She said oh now, oh now, oh now, oh now, oh now

When the sun goes down, stars come out
It's a, can you feel it?
Wanna take you by the hand, dancing with my pals
Sit around, round, round
It was so high, we can paint the sky
With the love right now we're feeling
And I swear we're never, ever, ever coming down
Never coming down, never coming down

Oh, oh, ooh yeah
It's coming down, can you feel it?
Oh, oh
Never, ever, ever, never coming down
Oh, oh, ooh yeah
It's coming down, can you feel it?
Oh, oh
Never coming down
