

Parallel Line

Keith Urban

You said "I love you" to me
And I don't know what that means
So I froze on my feet
People use it so carelessly
And I couldn't believe
That you would dive in so deep
And you said perfectly
Everything I've been feelin' about you

It's time to break the chains
That held me back from you

So come on and
Take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it
Take a little bit of my
Heart tonight
No, baby be mine now
Baby be mine now
Maybe it's time we
Put our hearts in a parallel line

Well I was never the type
To put it all on the line
But I've been changing my mind
Since you opened my eyes
It was the way that the light
Picked you out of that night
Then you were right by my side
Put a soul in my body

And now it's time to close the space
Between the two of us

So come on and
Take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it
Take a little bit of my
Heart tonight
No, baby be mine now
Baby be mine now
Maybe it's time we
Put our hearts in a parallel line

Oh baby it's time
Oh it's time

Take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it
Take a little bit of my
Heart tonight

No, baby be mine now
Baby be mine now

Take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it
Take a little bit of my
Heart tonight
No, baby be mine now
Baby be mine now
Maybe it's time we
Put our hearts in a parallel line
Put our hearts in a parallel line
Put our hearts in a parallel line
