

Soul Food

Keith Urban

Ooh, oh-oh
Yeah
Ooh, oh-oh

Every night that I've been gone
Far from everything I love
Make me feel like I'm at home
That's what you remind me of
Wish I had you all the time
More than just here in my mind
Little slice of paradise
Of paradise

Tryna fill this hole just leaves me bare
(It's useless)
All the things I could do won't compare
('Cause the truth is)

Nothin' sparks my appetite
Like you and me on friday nights
You leave my heart so satisfied
Your love tastes sweeter, every bite
You're so good
You're my soul food

Always there to pull me through
Hope I do the same for you
Girl, you're good enough to eat
That's why they call it comfort food
Wanna put your mind at ease
Like you always do for me
Give you everything you need
That's all I need

Nothing in this world comes even close
(It's useless)
The longer we're apart the more I know
(That the truth is)

Nothin' sparks my appetite
Like you and me on friday nights
You leave my heart so satisfied
Your love tastes sweeter, every bite
You're so good
You're my soul food
You're my soul food
