

The River

Keith Urban

I know a place where love flows like water
You sit on the bank and pass the time away
So take my hand I want to show you something
My very own lover's hideaway

And I will take you down the river
Where we'll will be lovin' in the shade of the old willow tree
I'll take you down to the river
Where you and I can just be you and me

I see us know just lyin' underneath the heavens
Sippin' on wine with nothing much to do
Just you in my arms when the sun is settin'
Then makin' sweet love in the night of Mr. Moon

And I will take you down the river
Where we'll will be lovin' in the shade of the old willow tree
I'll take you down to the river
Where you and I can just be you and me

You know I'll love you anyway
All I will feel the same until the sun don't shine
All I want to do is stay
'Cause you're a once in every lifetime

And I will take you down the river
Where we'll will be lovin' in the shade of the old willow tree
I'll take you down to the river
Where you and I can just be you and me

And I will take you down the river
Where we'll will be lovin' in the shade of the old willow tree
I'll take you down to the river
Where you and I can just be you and me
