

# With You

Keith Urban

I've been wondering if I was more like water  
Would I still find a place to hide?  
'Cause I don't want to stay here hiding in my corner  
If I was more like water, I'd surround you like the tide

Would I cry for you?  
Would I freeze over?  
Would I slip through the cracks unnoticed or crash into you?  
Crash into you

When I feel like a storm is on its way and my skies are turning gray  
I know that I can take it  
As long as I can face it  
Your love like shelter from the rain and that touch I can't explain  
I know that I can take it as long as I can face it with you  
As long as I can face it with you

I can see so clearly standing on your shoulders  
It takes more than me, it takes you baby  
Let the days turn into years as we grow older  
Will you run with me  
Even if we don't know where we're going?

When I feel like a storm is on its way and my skies are turning gray  
I know that I can take it  
As long as I can face it  
Your love like shelter from the rain and that touch I can't explain  
I know that I can take it as long as I can face it with you  
As long as I can face it with you

Would I cry for you?  
Would I freeze over?  
Would I slip through the cracks unnoticed or crash into you?  
Crash into you

When I feel like a storm is on its way and my skies are turning gray  
I know that I can take it  
As long as I can face it  
Your love like shelter from the rain and that touch I can't explain  
I know that I can take it as long as I can face it with you  
As long as I can face it with you

As long as I can face it with you  
As long as I can face it with you  
As long as I can face it with you
