

Heartbreak Highway

Keith Whitley

Palms were hot and sweaty
Hope my heart is ready
Here it goes nothing fast
Check the rear view mirror
Memory's getting clearer
I can't let it pass

Driving myself crazy I'm losing control
Looks like I'm headed for a rough and rocky road

Heartbreak highway
Fast lane to the blues
Each turn I take
Leads me back to you
And there's nothing I can do

Wrong way, going nowhere
I've already been there
Can't see through the rain
Truck stop coffee's bitter
Last night took forever
Can't sleep with the pain

I still see you with me every time I lay down
That leaves a burning bridge to turn my life around

Heartbreak highway
Fast lane to the blues
Each turn I take
Leads me back to you
And there's nothing I can do

Something's starting shaking and falling apart
If something's breaking up it's gotta be my heart

Heartbreak highway
Fast lane to the blues
Each turn I take
Leads me back to you
And there's nothing I can do

Heartbreak highway
Fast lane to the blues
Heartbreak highway
Leads me back to you

Heartbreak highway
Fast lane to the blues
Heartbreak highway
Leads me back to you
