

# I Would Have Loved You All Night Long

Keith Whitley

I know she thinks we're different  
In the cold gray light of dawn  
For somethings feel so right at night  
And in the morning feels so wrong

Last night I saw me in your eyes  
This morning I see I'm gone  
If I'd know last night was our last night  
I would have loved you all night long

If I'd know last night was our last night  
No more to look forward to  
I would have given more me  
And taken more of you

Then perhaps instead of lettin' go  
You'd still be hangin' on  
If I'd know last night was our last night  
I would have loved you all night long

I watch you brushing your soft black hair  
And the wrinkles from your clothes  
As you move around the ring  
I wished you wouldn't go

If I could love you one more time  
I'd give anything I owned  
If I'd know last night was our last night  
I would have loved you all night long

If I'd know last night was our last night  
No more to look forward to  
I would have given more me  
And taken more of you

Then perhaps instead of lettin' go  
You'd still be hangin' on  
If I'd know last night was our last night  
I would have loved you all night long

If I'd know last night was our last night  
I would have loved you all night long
