

Turn This Thing Around

Keith Whitley

Well one thing led to another, that led to your taxi cab
To take me to the airport, man I was really mad
Angry words were spoken, mostly out of spite
Now this second thought I'm havin' is the first thing I've done
right

Turn this thing around, you must think I've lost my mind
But it really would be crazy to leave her love behind
Temporarily insane, but I see it so clearly now
So if you don't mind take me back so I can turn this thing around

Saw a little man sellin' roses, just back a couple of blocks
I'll roll down the window, and buy all that he's got
And if you know a short cut, I'll cut it in two
When you pull in my driveway, there's 20 just for you

Turn this thing around, you must think I've lost my mind
But it really would be crazy to leave her love behind
Temporarily insane, but I see it so clearly now
So if you don't mind take me back so I can turn this thing around

Temporarily insane, but I see it so clearly now
So if you don't mind take me back so I can turn this thing around
So if you don't mind take me back so I can turn this thing around
