

## Private Dance

Keke Palmer

The music spinnin slowly  
I'm on it and I know it  
You scoping and I know this  
So don't stop there

Smoke and lights are glowin  
I'm dancin, losin focus  
Baby I can tell you want it  
So don't stop there, give it to me

Let my body, let my body, drive me crazy  
Music started, now my movement's hot  
Get it as I'm here  
One thing on my mind tonight  
Grab my girls, hit the floor, good times  
Let's get it, get it

It's a party party every night  
Everybody party, let's get like  
Oh oh let's dance  
Oh oh let's dance

Follow my lead if you bout this beat  
Come on baby follow my lead if you bout this beat  
Get right here if you bout this beat  
And we'll keep going going going  
Dancing until morning comes

Turn it up, the smush, the smoke  
It ain't loud enough  
Make me feel it inside of me  
Don't play no games with me boy, please  
Don't be scared, pull me close, I need  
When you do that thing right there (it gets me)  
Last didn't thought I'm ready, go with it  
You let my body run yo body  
If you're workin on getting me started  
Then I'm workin on leavin this party

It's a party party every night  
Everybody party, let's get like  
Oh oh let's dance  
Oh oh let's dance

Follow my lead if you bout this beat  
Come on baby follow my lead if you bout this beat  
Get right here if you bout this beat  
And we'll keep going going going  
Dancing until morning comes
