

Diamonds and Pearls

KeKe Wyatt

This will be the day
That you will hear me say
That I will never run away

I am here for you
Love is meant for two
Now tell me what you're gonna do

If I gave you diamonds and pearls
Would you be a happy a boy or a girl
If I could I would give you the world
But all I can do is just offer you my love

Which one of us is right
If we always fight
Why can't we just love decide (just love decide)

Am I the weaker man
Because I understand
That love must be the master plan

If I gave you diamonds and pearls
Would you be a happy a boy or a girl
If I could I would give you the world
But all I can do is just offer you my love

D to the I to the A to the M
O to the N to the D to the pearls of love
D to the I to the A to the M (M, M, M...)
O to the N to the D to the pearls of love

There will come a time (There will come a time)
When love will blow your mind (Blow your mind)
And everything you'll look for you'll find (Take a look inside)

That will be the time (That will be the time)
That everything will shine (Forever)
So bright it makes you colorblind (You will be color blind)

If I gave you diamonds and pearls
Would you be a happy boy or a girl
If I could I would give you the world
All I can do is just for you, my love

If I gave you diamonds and pearls (Pearls)
Would you be a happy boy or a girl (Yeah yeah)
If I could I would give you the world (Give you the world)
All I can do is just offer you my love
