

The Haunting

Keldian

do you come from the sky?
do you fly on a silver wing?
I will be paralyzed
you will harvest my body and my mind

do you rise from the grave?
have you come from the underworld?
you want me for a slave
I will be just a living dead in chains

tonight comes the haunting
the night will be frightening
tonight comes the haunting
and I will be wanting the universe to stop

do you ride on the wind?
are you what people call a ghost?
I will not let you in
and still you will be floating through the walls

do you walk on the lake?
have you come from the spirit world?
I will be yours to take
for I can't let go of my own self

tonight comes the haunting
the night will be frightening
tonight comes the haunting
and I will be wanting the universe to stop
