Keldian

To the land beyond the sea  
On a journey under stars, you follow me  
So behold your deepest dream  
Land beyond the sea, and life eternally

To be first of men  
To be pioneers  
No more words without meaning  
To be setting sail  
For the open seas  
Ever hoping and dreaming

Land beyond the sea  
Life eternally  
It's our destiny  
Immortality

To discover worlds  
To be lords of lands  
On the far side of oceans  
To be among gods  
For eternity  
To inspire generations

To the land beyond the sea  
On a journey under stars, you follow me  
So behold your deepest dream  
Land beyond the sea, and life eternally
