

# Take Me Apart

Kelela

Seven in the morning  
When they wake you gotta be ghost  
Let me tell you one thing  
I'm about to overflow  
Boy, you don't know my bed  
Well, tonight you might find out  
Open up my window  
Once you're in there's no way out

I am a river  
And this river's slowing down  
Know where you'll wind up  
Cross my water 'til you drown  
I feel it, baby  
Tell me what so I know how  
I've been up, baby

So you can take me apart  
Waited up all night  
Take me apart  
And I wait up all night  
I wait up, I wait up  
All night

Afraid of falling knowing that I could never live without  
Try to tell you one thing  
And then you just read my mind  
Where you going, baby, without kissing me goodbye?  
Try to fight it, baby  
And now we're going back

My river's slowing down  
Know where you'll wind up  
Cross my water 'til you drown  
I feel it, baby  
Tell me what so I know how  
I've been up, baby

You better take me apart  
Take me apart  
Waited up all night  
Take me apart  
'Cause I'm waiting  
Take me apart  
And I wait up all night  
I wait up, I wait up  
All night

I'm walking, I can't keep my head up  
'Cause we're talking late at night  
Started a song then I gave up  
So, I hope this comes out right  
Don't say you're in love, baby  
Don't say you're in love, baby  
Don't say you're in love until you learn to take me apart

Waited up all night

Take me apart  
And I wait up all night  
I wait up, I wait up  
All night

I wait up, I wait up  
I wait up, I wait up  
Take me apart  
I wait up all night  
I wait up, I wait up  
Take me apart  
I wait up, I wait up all night
