Scream

Kelis

Been running in place for such a long time
Stuck in a race in the wrong line
When it all came down on me.
And I havent had faith for such a long time
Am I outta place or out of my mind
Should it all fall down on me

Its not enough to live so just dream
Its not enough to live so just dream
Its not enough to live so just dream
Its not enough to sing so just scream

Youll never know
If you dont let it out
You've had enough
Thell call your bluff
You cant back down lost in a crowd
Youve won the right to scream and shout
They'll talk about you lost your cool
There is no point who makes the rules
So lets get to it
Now youll prove it
Break out

Scream and shout
Scream and shout
Scream and shout
Scream and shout

Been running in place for such a long time
Stuck in a race in the wrong line
When it all came down on me.
And I havent had faith for such a long time
Am I outta place or out of my mind
Should it all fall down on me

Its not enough to live so just dream
Its not enough to live so just dream
Its not enough to live so just dream
Its not enough to sing so just scream

Sound the alarm
Raise your arms
Your on your own
Your not alone
Big city got you on the ground
Afraid to fight dont make a sound
So lets get to it
Now youll prove it
Push back

Scream and shout
Scream and shout
Scream and shout
Scream and shout

Been running in place for such a long time

Stuck in a race in the wrong line
When it all came down on me.
And I havent had faith for such a long time
Am I outta place or out of my mind
Should it all fall down on me

Its not enough to live so just dream
Its not enough to live so just dream
Its not enough to live so just dream
Its not enough to sing so just scream
