

Tough All Over

Kellie Pickler

Some days I can take it all in stride
Some days I just run and hide
And I know I'm not the only one
Who has to struggle through this life

Things are tough all over
And Lord I see no end in sight
Things are tough all over
It's a tender world and you are lost tonight
It's a tender world and you are lost tonight

It almost makes me feel ashamed
That I found reasons to complain
'Cause any hard times that I've ever had
Your sweet love just melts them away

Things are tough all over
And Lord I see no end in sight
Things are tough all over
It's a tender world and you are lost tonight
It's a tender world and you are lost tonight

So leave the paper on the doorstep
I don't wanna read the evening news
If this world hasn't figured it out yet
Then love is the best thing we can do

Things are tough all over
And Lord I see no end in sight
Things are tough all over
It's a tender world and you are lost tonight
It's a tender world and you are lost tonight
